

## **Update from Delta Protection Commission**

---

**Summary:** Executive Director for the Delta Protection Commission, Mike Machado, will provide a brief update on the Delta Protection Commission's Economic Sustainability Plan and provide a explanation of their commitment and role working with the Delta Stewardship Council in implementing the Delta Plan.

---

### **Background**

The Legislature established that the Delta Protection Commission (DPC) is an appropriate agency to provide recommendations to the Delta Stewardship Council on methods of protecting and enhancing the Delta as an Evolving Place. As required by law, DPC is developing an Economic Sustainability Plan (ESP) which will inform and guide the Delta Stewardship Council's policies for economic sustainability within the Delta Plan. The discussion will focus on the status of the ESP and the recommendations contained therein.

Additionally, on September 19, 2011 the Delta Stewardship Council hosted a focused work session on the ESP and Delta as an Evolving Place. This work session covered the role of the ESP and how it may inform future versions of Chapters 7 and 8 of the Draft Delta Plan. A briefing on the work session will be provided on Friday, September 23, 2011 under agenda item 21 Delta Plan Development.
